

Let's make experts for the world of work together!

By giving feedback, you will improve the quality of vocational education and training.

By cooperating with a vocational institution, workplaces and companies can find solutions to their changing competence needs. The operating conditions and competitiveness of the sector can be improved through competence development.

We would therefore like to hear about workplace instructors' and workplace representatives' experiences of the daily guidance work and cooperation with the educational institution. A nationwide feedback survey is sent to all workplaces that have had students with an apprenticeship or training agreement.

The survey is carried out by the Finnish National Agency for Education in cooperation with secondary level vocational institutions.

To the
workplace

Working life feedback

The questionnaire is sent to workplaces that have trained students with an apprentice or training agreement. Responding takes approximately 5 minutes.

The survey monitors the workplace's satisfaction with the actions of the vocational institution in organising education and training in cooperation with the workplace. The survey does not assess the student.

The questions are related to the everyday partnership: the customer-oriented approach of the activities, the agreement process, guidance, support and quality.

The answers will be used to monitor and develop the quality of vocational education and training and as part of the funding for the institution.

The feedback results will be reported in an anonymous statistical format in the vipunen.fi statistics service provided by the education administration. The results specific to the workplace will be used by the vocational institution.

Two surveys

SURVEY TO WORKPLACE INSTRUCTORS:

Workplace instructors are requested to give feedback after a completed on-the-job-learning period at the workplace. The questionnaire is sent to the responsible workplace instructor named in the apprenticeship or training agreement, who may forward it to the person that has in practice been involved in the guidance of the student more. The questionnaire is sent by the Finnish National Agency for Education.

SURVEY TO WORKPLACES:

The workplace representative is requested to give feedback twice a year. The questionnaire is sent by the educational institution.

Thank you
for guiding
students
with training and/or
apprentice
agreements!
