Guidelines for TFK Ukraine projects
What is funded in TFK programme

- Joint study units, courses and intensive courses
- The development and realisation of digital/virtual teaching
- Curriculum cooperation
- Joint/double degrees
- Mobility (teacher, staff, student and/or trainee mobility)
- Working life cooperation
General terms and monitoring the grant 1/2

• The project will be implemented as indicated in the project plan.

• In case of possible changes that impact the nature of the project, such as changing all planned student mobilities into staff exchanges, a written request must be sent to EDUFI. Smaller changes, such as timing or number of mobilities within the project period, need not to be informed to EDUFI.

• In case the contracting Higher Education Institution has not been able to realize the project as planned, EDUFI has the right to charge back the amount of unused grant.

• In addition, if the grant has not been used according to the guidelines or the costs are unreasonable, EDUFI has the right to charge back the ineligible costs.
General terms and monitoring the grant 2/2

• It must be possible to monitor the use of the TFK programme grant separately in the internal bookkeeping of the contracting HEI. Each agreement should be monitored separately.

• If required, the contracting Higher Education Institution must be able to demonstrate that travel/mobility grants have been paid to participants of the TFK programme.

• Upon request, the contracting Higher Education Institution must provide EDUFI any other information EDUFI sees necessary for the implementation, administration and monitoring of the programme.

• EDUFI also has the right to conduct an audit visit to the contracting HEI about the use of TFK programme grant.
Costs by the partner HEIs in the project

The use of EDUFI grant or the contribution to self-financing of partners in the project does not necessarily need to show in the internal bookkeeping of the contracting HEI. Other ways to demonstrate the self-financing or costs of the partners:

- **Option 1 for Finnish partners:** advisable to add a separate extract of account of the partnering HEI(s) to the final report to demonstrate the partners’ financial costs to the project

- **Option 2 for Finnish partners:** invoices (for example rental costs of seminar premises or travel costs) to demonstrate the partners’ financial contribution or use of TFK grant in the project

- **Foreign partners:** invoices of the realized costs in partner countries need to be attached to the final report, in case of salaries accounting reports are required
Three categories of costs

Granted project funding can be used to cover three categories of costs:

1. Organisational and other costs
2. Travel costs
3. Salary costs, which can account for up to 50% of the project funding

- Funding can be transferred between the categories (e.g. to fund more or longer mobilities than originally planned) as long as the 50% rule is respected.
- The project funding can be divided between the higher education institutions participating in the project as the project sees fit.
- The funding cannot be used to cover the administrative/overhead costs of higher education institutions, hospitality costs or business gifts.

If the costs have been estimated as including VAT in the budget plan of the project, they must also be reported as including VAT.
1) Organisational and other costs

- Must consist of expenses directly associated with the realisation of the core activities of the project.
- E.g. online realisation of course and teaching content, teaching-related course material or the organisation of events.
- Valid organisational costs include also the purchase of services and the renting of equipment, for example.
2) Travel costs

• **Staff** travel costs
  
  • Additional costs resulting from travel, such as travel tickets, accommodation, travel agency costs, visas, insurance and potential per diem allowances, are also considered valid travel costs, covid tests. **Based on real costs.**

• **Student** travel costs
  
  • Students receive a *monthly mobility grant* based on the length of the mobility period as well as a travel grant, regardless of the actual costs of the mobility period.
  
  • The costs of student mobility can also be realized by covering the direct costs of mobilities by the coordinator, such as accommodation & travel, while still respecting the set monthly grants.
Staff mobility

- Staff mobility costs may be covered for persons who are staff members of a higher education institution participating in the project during the mobility period.
  - Can be paid according to actual costs.
  - The travel/mobility must be justified and cost-efficient.
- Staff mobility periods should preferably always be combined with virtual cooperation or teaching content.
- In the final report stage the final grant will be calculated according to the actual realized costs of the reported staff mobilities.
Long-term student mobility from Ukraine

• Mobility duration 2–12 months.

• Grants for long-term student mobility are:
  • Incoming student mobility €900/month

• In addition, a student will receive a travel grant of €1,000/exchange or €1,500/exchange in case travel to obtain visa is needed.

• In the final report stage the final grant will be calculated according to the realized long-term student mobilities in months, not the actual costs of the mobilities.
3) Salary costs

- Salary costs can account for up to 50% of the total project funding granted.
- Salaries must not be subject to indirect administrative costs / overhead costs.
- Salary costs must be based on the effective working time associated with the implementation of the project.
Special Needs Grant in EDUFI’s programmes

Students or staff with a disability may be eligible for additional financial support to help them take part in international programmes. This support is additional to the actual grant for HEIs or students.

Special needs grants are intended to enable international exchanges in circumstances when a special need causes additional costs that are not covered by other sources. Special need can be for example an injury, impairment, physical or psychological illness or learning difficulty.

The grant can be awarded to accessible accommodation, assisted mobility or such study-related special arrangements as learning materials by a separate application by the individual involved.
