Towards a broader view of language education: the CEFR Companion Volume with New Descriptors:

The Common European Framework for Languages: Learning, teaching, assessment
The Common European Framework for Languages: Learning, teaching, assessment
The CEFR provides a clear organization of second/foreign language proficiency around six levels, A1, A2, B1, B2, C1, C2 expressed through “can do” descriptors.
B1: “Informal discussion (with friends)”

• Can generally follow the main points in an informal discussion with friends provided speech/sign is clearly articulated in standard language or a familiar variety.
• Can give or seek personal views and opinions in discussing topics of interest.
• Can compare and contrast alternatives, discussing what to do, where to go, who or which to choose, etc.
• Can make his/her opinions and reactions understood as regards solutions to problems or practical questions of where to go, what to do, or how to organise an event (e.g. an outing).
• Can express beliefs, opinions and agreement and disagreement politely.
CEFR descriptor scales

- Spoken interaction
  - Overall spoken interaction
    - Understanding an interlocutor
    - Conversation
    - Informal discussion
    - Formal discussion

- Written interaction
  - Overall written interaction
    - Correspondence
    - Notes, messages and forms

- Online interaction
  - Online conversation and discussion
  - Goal-oriented online transactions and collaboration

“attractive because they help to focus both learners and teachers on an action-oriented approach.” (CEFR p 180)

- Descriptors of **aspects of proficiency**:

These scales are complementary

- **A2 speaking**: Can use simple descriptive language to make brief statements about and compare objects and possessions.

- **A2 grammatical accuracy**: Uses some simple structures correctly, but still systematically makes basic mistakes – for example tends to mix up tenses and forget to mark agreement; nevertheless, it is usually clear what he/she is trying to say.

Curriculum as a dynamic system (Graves 2008)

“Planning, implementation and evaluation decisions should be consistent and interdependent rather than undertaken in a lockstep or piecemeal approach.” (Graves, 2008: 148)
• **Constructive alignment:** The process of ensuring coherence between curriculum, teaching and assessment, usually by planning both the curriculum and assessment in relation to desired outcomes through **backward design**

• **Backward design:** Identifying learning needs and necessary outcomes, usually in terms of ‘real world’ competences, and then planning the necessary enabling objectives, learning activities and other course content ‘backwards’ from those outcomes
“One of the most important curriculum publications in the last decade is the Council of Europe’s Common European Framework of Reference (Council of Europe 2001) that seeks to provide descriptions that apply to competence in all languages across all levels.” (Graves, 2008: 148)

“Perhaps the most widespread example of backward design using standards in current use is the Common European Framework for Reference for Languages (CEFR) (Council of Europe, 2001)…” (Richards, 2013: 26)
The CEFR:

A heuristic

not

an answer

to all problems
“We have NOT set out to tell practitioners what to do or how to do it. **We are raising questions not answering them.** It is not the function of the CEF to lay down the objectives that users should pursue of the methods they should employ.”

6. Example tasks
Learners as Social Agents who:

- (co)-construct meaning
- in real-life tasks
- while engaging in communicative activities
- and drawing upon a series of competences
- and developing communicative strategies

In turn, by performing tasks, they develop competences and strategies
Seeing learners as **social agents** implies

- involving them in the learning process
- recognising the social nature of language learning and language use,
- recognising the interaction between the social and the individual in the process of learning
- extensive use of the target language in the classroom – learning to use the language
- allowing learners to use all their linguistic resources
- encouraging them to see similarities and regularities as well as differences between languages and cultures

Above all,

- **purposeful, collaborative TASKS**, whose primary focus is not language
Tasks

- Tasks are a feature of *everyday life* in the personal, public, educational or occupational domain.

- Task accomplishment by an individual involves the *strategic activation* of specific competences.

- Any *purposeful action* considered by an individual as necessary in order to achieve a given result in the context of a problem to be solved, an obligation to fulfill or an objective to be achieved (CEFR p.10).
Realistic tasks are messy

they involve:
• integrated skills
• collaboration
• processing input (text)
• getting this input across to the others
• helping the progress of the task
• solving difficulties/disagreements

This is mediation
“Communication is an integral part of tasks where participants engage in
• interaction,
• production,
• reception,
• mediation,
or a combination of two or more of these”

(CEFR, p. 157)

- express themselves in one language and understand the other
- call upon the knowledge of a number of languages to make sense of a text
- recognise words from a common international store in a new guise.
- mediate between individuals with no common language
- bring the whole of their linguistic equipment into play, experimenting with alternative forms of expression
- exploit paralinguistics (mime, gesture, facial expression, etc.)

“In mediating activities, the language user is not concerned to express his/her own meanings, but simply to act as an intermediary between interlocutors who are unable to understand each other directly, normally (but not exclusively) speakers of different languages. ...”

(CEFR Section 4.4.4. English p.87)

“Mediation language activities, (re)processing an existing text, occupy an important place in the normal linguistic functioning of our societies.”

(CEFR, Section 2.1.3. English, p.14)
The reality is much more complex
• **Linguistic mediation/textual mediation** > interlinguistic and intralinguistic;

• **Cultural mediation** > facilitating understanding; cultural awareness (within a language and across languages and cultures),

• **Social mediation (including through media)** > playing the role of intermediary (linguistic and cultural mediator); critical cultural awareness;

• **Pedagogic mediation** > educators mediating knowledge, concepts and thinking (cognitively and relationally)

Phase 1 Dialogue

• **Student A**: Explain the different dishes and options to your friend who does not speak English. Prepare yourself in advance with the help of a dictionary, the glossary on your textbook, and role play.

• **Student B**: After understanding the menu, choose what you want to eat and drink and tell your friend, who will place the order for both.

Phase 2 Trialogue

- Mediating communication
  - Acting as an intermediary in informal situations

• **Student C**: the server

• **Student A and B at the table**: Student A and B have questions about the different dishes that the server needs to answer. Student A will then pass the order for both. Student C will ask questions (like how do you want your steak? what side dishes do you want?...) that student A has to mediate to student B and back to student C.

Phase 1 Reception  Mediating text: Note-taking

• **Student A**: Watch Video A and take notes on main points
• **Student B**: Watch Video Band take notes on main points

Phase 2 Dialogue  Mediating text: Processing a text

• Explain to your partner the facts and viewpoints expressed in your video. Listen to your partner’s explanation of theirs. Interrupt to ask for clarification, check comprehension, ask for more details, etc.

Phase 3 Discussion  Mediating concepts:
- Facilitating collaboration with peers
- Collaborating to construct meaning

• Join another pair to form a group of four. Discuss the two videos. Formulate (a) what you think must be done; (b) how people like you could help to persuade your government to adopt this policy.
Example tasks

**Note-taking**
(lectures, seminars, meetings, etc.)

**B1**

Can take notes as a list of key points during a straightforward lecture, provided the topic is familiar, and the talk is both formulated in simple language and delivered in clearly articulated standard speech.

**Processing a text in speech**

**B1**

Can summarise (in Language B) the main points made in long texts (delivered orally in Language A) on topics in his/her fields of interest, provided standard language is used and that he/she can listen/view several times.

Can summarise (in Language B) the main points or events in TV programmes and video clips (in Language A), provided he/she can view them several times.

**Facilitating collaboration**

**B1**

Can define the task in basic terms in a discussion and ask others to contribute their expertise and experience.

**Collaborating to construct meaning**

**B1**

Can use questions, comments and simple reformulations to maintain the focus of a discussion.
